

PROFILE

HANNES BAUMGARTNER, MSc

EXPERTS FOR INNOVATION PROCESSES AND DEVELOPMENT OF BUSINESS MODELS

Born in 1986 and grew up in St. Pölten. Father of two daughters.

I am a passionate entrepreneur. My focus is on applied technology innovations and digitalisation. I have years of experience in the field of business start-up and development and have also been able to celebrate international successes.

I am convinced that the future of business lies in innovation and the application of modern technologies. I am therefore happy to help other companies to fully exploit their potential in this area.

Ventures of this kind are not only essential for companies to continue to exist and be successful in the future, they also differ in the way they are tested, evaluated and managed. With the right methods, both the risks can be reduced and the chances of success increased.
